

# WypAll® WetTask™

Customizable Wet Wiping System

Step up to the enhanced hygiene of surface wipes at up to half the cost<sup>1</sup> with the #1 DIY Wet Wipes System in North America\*

## Works when others fail

Maintains active strength over 24 hours when microfiber, cloth and cellulose wipes do not<sup>2</sup>

## Reduces chemical exposure

No open bucket spills or fumes; no spray mist

## Avoids under-spray/over-saturation

Apply an even coating of the right dose and go; avoid premature dry wiping due to drenched surfaces

## Helps capture savings

Chemical reduction from closed bucket wipes; wipes savings with refills; no laundering

Participate in our WetTask™ 60-Day Risk-Free Trial with 20% chemical savings<sup>†</sup> guarantee and discover why more and more customers are switching to WetTask™

Replace your current wiping system with the Wypall® WetTask™ System for 60 days. If you don't see a 20% savings<sup>†</sup> in your chemical costs, Kimberly-Clark Professional will reimburse you the difference in your chemical costs up to \$1,000.

## Why change to WetTask™?

WetTask™ base sheets in closed bucket have been shown to **maintain** bleach and quat **active** concentrations **for 24 hours**, if not days, **unlike microfiber, cloth rags or cellulose-based wipes** in open bucket:

WetTask™ is **the only** DIY surface wipes **system** in North America **with three substrate options** to ensure you have the optimal base sheet for your chemical and cleaning needs.<sup>3</sup>

WetTask™ System Base Sheet Performance	Active					Solvent			Material

\* Based on 2021 U.S. and Canada market data of WypAll® WetTask™ versus other closed bucket systems with wipes rolls designed for full saturation in chemical solution.  
<sup>1</sup> Based on 07/2022 online audit of publicly available end user pricing of WetTask™ Meltblown SKUs, leading B2B chemical concentrates, and leading B2B pre-saturated surface disinfecting wipes. Savings evaluation used square inches due to in-market sheet size disparities (e.g., 30 vs. 144 sq. in.).  
<sup>2</sup> Based on time-bound study of substrate-expressed antimicrobial solutions using test strips to determine Quat and Bleach PPM (parts per million) concentrations with WetTask™ 06411 versus microfiber, cloth rags or cellulose-based wipes in open bucket.  
<sup>3</sup> Based on July 2022 KCP audit of widely distributed customizable Wet Wipes Systems in North America using publicly available information of manufacturer websites to determine the number of substrate options offered. Substrate option is hereby defined as one that is different from another in technology (e.g., Meltblown) and/or material (e.g., Polypropylene).  
<sup>4</sup> Based on July 2022 KCP audit of widely distributed customizable Wet Wipes Systems in North America using publicly available information of manufacturer websites to determine the number of SKUs offered. SKU counts include both wipes finished goods and accessories.  
<sup>5</sup> Fits in one gallon bucket that comes with items 04611, 06001 and 06211. One gallon buckets can also be ordered via KCP item 51677 that consists of four empty buckets.  
<sup>6</sup> Replace your current wiping system with Kimberly-Clark Professional's WetTask™ system for 60 days and see a 20% savings on chemical costs. The maximum amount that Kimberly-Clark Professional will pay out under this program is \$1,000 per customer facility. Void where prohibited, taxed or restricted by law. Not responsible for lost, late, misdirected, incomplete or undeliverable submissions. Kimberly-Clark Professional reserves the right to modify or cancel this program at any time.
