

# WypAll® WetTask™

Customizable Wet Wiping System

Step up to the enhanced hygiene of surface wipes at up to half the cost<sup>1</sup>

with the #1 DIY Wet Wipes System in North America\*

**Works when others fail**

Maintains active strength over 24 hours when microfiber, cloth and cellulose wipes do not<sup>2</sup>

**Reduces chemical exposure**

No open bucket spills or fumes; no spray mist

**Avoids under-spray/over-saturation**

Apply an even coating of the right dose and go; avoid premature dry wiping due to drenched surfaces

**Helps capture savings**

Chemical reduction from closed bucket wipes; wipes savings with refills; no laundering

**Can be recycled**

Avoid landfill waste with our hassle-free, fully traceable RightCycle™ recycling program<sup>3</sup>

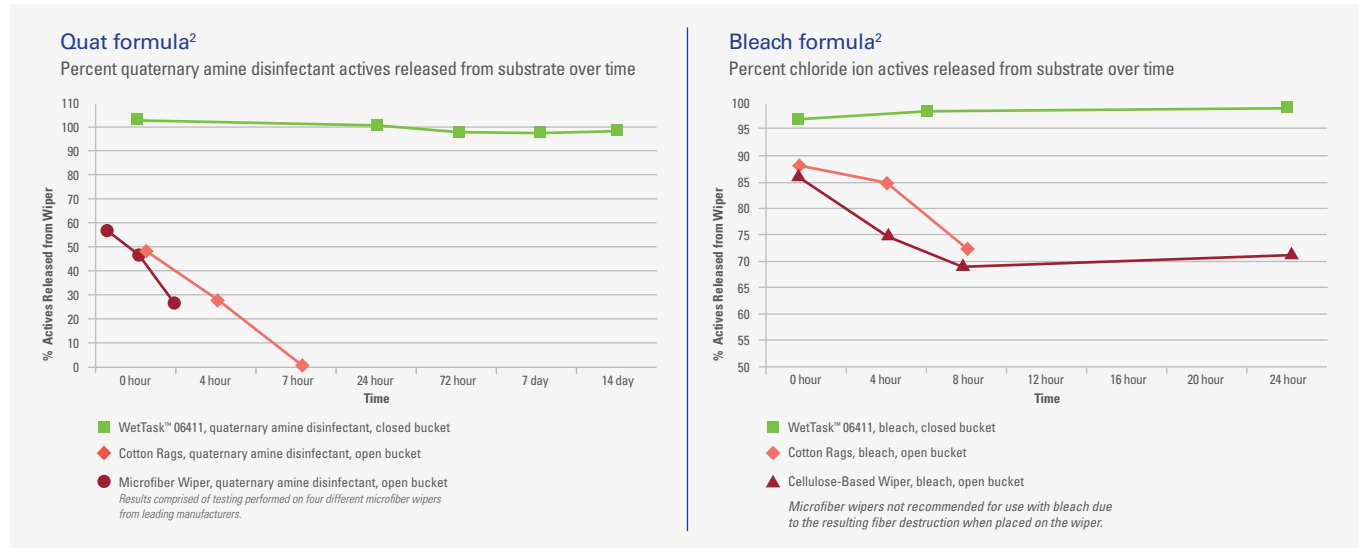

By Kimberly-Clark Professional®

### Why change to WetTask™?

WetTask™ base sheets in a closed bucket have been shown to **maintain** bleach and quat **active** concentrations for **24 hours**, if not days, **unlike microfiber, cloth rags or cellulose-based wipes** in an open bucket:

WetTask™ is **the only** DIY surface wipes **system** in North America **with three substrate options** to ensure you have the optimal base sheet for your chemical and cleaning needs.<sup>4</sup>

WetTask™ System Base Sheet Performance	All-Purpose Cleaners	Active				Solvent			Material		
		Quats	Bleach	H <sub>2</sub> O <sub>2</sub>	Peracetic Acid	Methyl Ethyl Ketone	Isopropanol	Acetone	Cloth Like	Tear Resistant	Lint Resistant

\* Based on 2021 U.S. and Canada market data of WypAll® WetTask™ versus other closed bucket systems with wipes rolls designed for full saturation in chemical solution.  
 1 Based on 07/2022 online audit of publicly available end user pricing of WetTask™ Meltblown SKUs, leading B2B chemical concentrates, and leading B2B pre-saturated surface disinfecting wipes. Savings evaluation used square inches due to in-market sheet size disparities (e.g., 30 vs. 144 sq. in.).  
 2 Based on time-bound study of substrate-expressed antimicrobial solutions using test strips to determine Quat and Bleach PPM (parts per million) concentrations with WetTask™ 06411 versus microfiber, cloth rags or cellulose-based wipes in open bucket.  
 3 Applies only to eligible WypAll® WetTask™ SKUs (i.e., 06411, 06471, 77320) that are non-hazardous waste as classified by federal, state, and local regulations ("Non-Hazardous Waste").  
 4 Based on July 2022 KCP audit of widely distributed customizable Wet Wipes Systems in North America using publicly available information of manufacturer websites to determine the number of substrate options offered. Substrate option is hereby defined as one that is different from another in technology (e.g., Meltblown) and/or material (e.g., Polypropylene).  
 5 Based on July 2022 KCP audit of widely distributed customizable Wet Wipes Systems in North America using publicly available information of manufacturer websites to determine the number of SKUs offered. SKU counts include both wipes finished goods and accessories.  
 6 Fits in one gallon bucket that comes with items 04611, 06001 and 06211. One gallon buckets can also be ordered via KCP item 51677 that consists of four empty buckets.
