

Industrial hot spots

These areas require hygienic solutions to help stop the spread of germs in your workplace.

- Targeting “hot spots” with hand and surface hygiene, is a key step toward helping reduce the spread of germs.
- Objects touched by lots of people throughout the day should be cleaned and disinfected frequently to help break the chain of germ transmission:

- **Doorknobs**
- **Vehicles**
- **Circuit boards**
- **Tools**
- **Equipment handles**
- **Sink fixtures**
- **Countertops**
- **Tables**
